1 Introduction

1.1 Document Purpose

This document describes the changes introduced in the Equiduct Trading System (ETS) patch release 20210603 to the 201708a release.

1.2 Intended Audience

This document is aimed at systems developers of Equiduct members and third-party vendors who are currently connected to the Equiduct Trading System.

This document does not provide all the business level information pertinent to Equiduct: see “Related Documents” above for details of further system documentation. Updates to this and other key documents can be found at <http://www.equiduct.com>.

2 Functional Changes

Enable a change to enhance Limit Order Protection functionality to allow qualifying retail Apex orders to be protected where the order is not top of the Equiduct order book.

3 FIX Changes

There are no FIX changes in this release.

4 ITCH Changes

There are no ITCH changes in this release.

5 Other changes

There are no other changes in this release.

6 Bug Fixes

There are the following bug fixes in this release:

- Fix a rare issue whereby a trade cancellation from the BME may be incorrectly included in the aggregated trades displayed in the Market By Limit feed.
