1 Changes since last publication

Below is a summary of changes since last publication:

Pages	Section	Change
8	7.3 Connectivity to Client-Specific Market Data Feed	Updated fees for 2023
-	-	Updated wording, simplification, formatting adjustments, no changes to meaning or fees

2 Börse Berlin membership fee

Trading on Equiduct requires membership to Börse Berlin.

The membership fee is paid on a monthly basis.

Börse Berlin Equiduct Trading	Annual fee
Membership Fee	€6,000

3 Apex trading fees

Apex trading fees for all markets

	Fee
Opening & Closing Cross	Free
Continuous Trading	Free

4 Zenith trading fees

Zenith fees for all markets.

4.1 Broker order charge

	All securities
Aggressive fee	0.30 bps

4.2 Technical internationalisation

- Applied to institutional order flow trading in Zenith only, where trade counterparties are the same member firm, or one member is a subsidiary (at least 50% owned) of the other.
- Qualification for the Technical Internalisation schedule is granted at the time of admission.
- Annual fees are capped at €200k or €100k flat upfront fee.
- A fair usage cap of €500m turnover per day applies.

	All Securities
Aggressive Fee	0.21 bps
Passive Fee	0.21 bps

4.3 Orders from Liquidity Providers also active on Apex

Apex Liquidity Providers submitting aggressive orders in the Zenith service.

Daily Traded Value	All Securities
Up to €10m	0.15 bps
Next €10m	0.10 bps
Above €20m	0.05 bps

5 Central Limit Order Book

	Applicable Fee
All Markets	0.50 bps

6.2 Apex Opening/Closing Cross trading rebate

6.2.1 All markets except Spain

Equiduct rebates the same fee that Liquidity Providers would have been charged on the Primary Market, had the corresponding order been placed there.

6.2.2 Spain

	Select Equities	Other Equities
Rebate	0.30 bps	1 bp
Additional OC/CC Rebate	€1.00	€1.00
Rebate Cap	-	€12.60

6.3 Zenith

	Applicable Fee
All Markets	0.12 bps

7 Connectivity fee schedule

7.1 Physical connectivity

Each trading member of Equiduct is eligible for a resilient pair of 1G cross-connections to the Equiduct production environment at Interxion LON1 with no charge from Equiduct.

Other clients are charged as per the table below:

Number of connections	Fee per connection
First two 1G connections	€500 per month
Additional connections	€1,000 per month
10G connections	Not currently available

In all cases, clients are responsible for ordering and paying for cross-connections from their infrastructure to Equiduct.

7.2 Logical connectivity

A single FIX order entry session ("FIX port") provides resilient access to primary and backup FIX gateways and allows access to all market segments and trading services.

A single FIX drop-copy session ("Drop-copy port") provides resilient access to primary and backup FIX gateways and allows a trading member to receive copies of all their trades across all Equiduct segments and services.

	All Users
FIX Trading Port Fee	€290 per month per port
Drop-copy Port Fee	€580 per month per port

Notes

- Default rate limit per port is 500 messages/sec. Equiduct reserves the right to charge an increased fee for high-message-rate ports (e.g. > 1,000/sec).
- Port fees may be waived for up to 90 days, on a case-by-case basis, where Equiduct is satisfied that additional port(s) are temporarily required during migration to, or rollout of, new technology or service usage.

7.3 Connectivity to Client-Specific Market Data feed

Each trading member of Equiduct is eligible to consume their own version of the Client-Specific Market Data feed.

	Monthly Fee
For each Trading Participant	€1,423.33
For each additional sub-ID session	€820

Notes

The 'For each Trading Participant' fee includes a connection to both gateways for a single market participant.
