

# Equiduct Market Data Solutions

*Powering smart trading of  
pan-European securities at  
accessible prices*

**Equiduct is a pan-European exchange focused on delivering best-in-class services for the retail and institutional trading community as well as a unique consolidated data feed for European equities and ETFs.**

At Equiduct, we offer a range of proprietary Market Data solutions giving access to transparent, high-quality data to empower clients to make smart trading decisions and meet post-trade compliance requirements. Our products include a breadth of real time, pre- and post-trade data, used by both institutional and retail participants.

Our solutions span equities and ETFs in 11 markets, providing a comprehensive view of liquidity and trading activity across major European markets including Paris, Amsterdam, Milan, London, Madrid, Frankfurt, Brussels and Lisbon.

Equiduct Data provides a cost-effective alternative to prohibitively expensive sources of market data, with real time prices covering more than 2,000 of the most liquid equities and ETFs in Europe.

# A quick look into each of our Market Data solutions

## Market by Limit

The Equiduct Market By Limit data is a market depth feed showing the top ten price levels with aggregated volumes from major lit European venues. It also includes post-trade data – aggregated trades from the contributing venues. By selecting this product, you can see the available liquidity and trading activity across the most relevant markets in Europe in a single consolidated feed.

## VBBO

Our VBBO product shows the Volume Weighted Best Bid and Offer across markets based on the visible pre-trade book depth data. Equiduct VBBO data is used for benchmarking, pricing of financial instruments, and as a low-cost view of the entire European equity market.

## HybridBook

Equiduct's HybridBook feed displays the full depth of Equiduct's Central Limit Order Book, and all trades concluded on the Equiduct market.

Which  
package is  
right for you?

FEATURE	MARKET BY LIMIT	VBBO	HYBRIDBOOK
Pre-trade data	✓	✓	✓
Post-trade data	✓		✓
Depth of book	✓		✓
Consolidated Book	✓		
All relevant European exchanges	✓	✓	

# Where to find our data
